WEDNESDAY, NOVEMBER 14. 1739.

No. 1371.

Yesterday arriv'd the Mails due from Holland and France.

Vienna, Nov. 7. N. S.

THE Grand Signior has made another Offer to the Emperor of a very considerable Sum of Money to save the Fortifications of the Citadel of Belgrade from being demolished, but his Imperial Majesty has rejected it, and sent Orders to his Commissioners who are employ'd in settling the Limits of the Empire with those of the Porte, not to consent to give up that District of Croatia which is claim'd by the Turks. Half of the City of Belgrade is deliver'd to the Commander of the Turkish Troops. Mr. Robinson the British Minister having receiv'd an Express from his Court on the 5th, a grand Council was held thereupon next Day in Presence of the Emperor, and after he was withdrawn into his Closet the Ministers conferr'd together; Count Sinzendorf had afterwards a Conference alone with Mr. Robinson, who then sent the Courier back to London; but in a few Minutes after this, the said Minister receiv'd another Express from his Court, and he communicated the Dispatches which it brought to the Emperor. 'Tis now reported, that Mr. Robinson makes strong Instances with his Imperial Majesty, not only on the Part of the King his Master but also of other Powers, for the Conclusion of a Treaty to restore the Balance of Power in Europe; and that the Marquis de Miropols the French Ambassador, who 'tis said has receiv'd Orders to stay here the Winter, has also had several Conferences lately with the Count de Sinzendorf, the View of which is, in all Appearance, to thwart the Negotiations of Mr. Robinson. Mean time 'tis said the Count de Bartenstein the Secretary of State for Foreign Affairs will shortly be sent to London with a Ministerial Character from the Emperor.

The Contagion appears again in several Parts of Hungary: And the Regiment of Prince Charles of Lorraine, which was marching into Winter Quarters, has receiv'd the Infection near Buckovar.

Several Reports are reviv'd relating to the Papers found upon Major Sinclair, who was lately assassinated upon the Frontiers of Silesia; and among others of a Treaty of offensive and defensive Alliance between Sweden and the Porte, by which the latter was to furnish Sweden with a certain Subsidy, on Condition that the Swedes should act against the Russians with 10000 Men; but this News is not to be depended upon.

Two Days ago the Emperor went with great Ceremony to the Metropolitan Church to join in the Divine Service, which is perform'd here annually for three Days together to the Honour of the Image of the Holy Virgin, in Memory of a Flood of Tears which it is said to have shed in the Church of Porch Hungary on the 4th of November 1696, which was conferr'd as a Presage of the great Rebellion which broke out soon after in that Kingdom.

We are assur'd, that the Discontent betwixt the Imperial Court and the Grison Leagues is increas'd; and that in Tirol a Stop is put to their Correspondence with that Country. Mean time the Dyet, in which the Grison Leagues were to debate the renewing of the Alliance with the French King, is again adjourn'd.

Rome, Oct. 31. N. S. The following are some particulars of what pass'd at the taking Possession of the Republic of San Marino.

Cardinal Alberoni on the 17th Instant march'd with 400 Soldiers, and Bailiffs, towards the Territory of San Marino without any external Mark of his Authority, or any Companions but two Notaries and a regular Canon. When he arriv'd at Serravalle he summon'd the Parson of the Place and the Magistrate to take the Oath of Allegiance to him; after which he went to the principal Territory situate on the Point of a Rock, when one half of the Inhabitants that were in a Conspiracy against three or four of the principal Families of this Republic, cry'd out for the Pope, but the rest cry'd *Long live Liberty*, and rais'd into the Castle, where they rung the Alarm Bell; which at first astonish'd the Cardinal,

but at last he receiv'd the Oath of his Adherents, caus'd *Ta Deum* to be sung, &c.

As soon as the Pope was inform'd of this Step he disapprov'd it, and sent Letters to acquaint the Nuncios at all the Courts that he condemn'd this Violence committed without his Order, and that instead of oppressing the Inhabitants of San Marino, he was resolv'd to grant them his Protection. We hear, that the Captain or chief Man of this Republic is retir'd to Florence: from whence 'tis conjectur'd, that in this little Commonwealth, which borders upon Tuscany, there is a Party inclin'd to put themselves under the Protection of the Great Duke.

## AMERICA.

Philadelphia, Sept. 6. We hear from Albany, that a large Body of French and Indians lately pass'd by Oswego Fort, in their March from Canada to the Southward, on an Expedition against the Southern Nations.

Tomkins, Esq; deceas'd, gave a grand Entertainment to the Mayor and several Gentlemen and Freemen, where the Healths of his Majesty and all the Royal Family, and several other Loyal Healths, not forgetting the glorious and immortal Memory of King William, were drank; and the Night concluded with Bonfires, Illuminations, and other Demonstrations of Joy.

The Militia of this Town was the most remarkable in the late War for Courage, Conduct and Bravery of any in the Kingdom.

Last Week as the Apprentices and Mob were going to beat a Bull in the Earl of Meath's Liberty, the Bull, in Mutton-Row, ran his Horn into a Woman's Eye, and carried her upon the Tip of it from thence into Truck-street before she could be disengag'd.

They write from Petersburg, that on the 18th ult. O. S. an Express was sent to Constantinople with the Czarina's Ratification of the Treaty of Belgrade; which, 'tis said, was hasten'd the sooner, on purpose to put the Russian Court in a Condition to defeat an abominable Scheme form'd against that Empire, and one of its best Allies; and to bring the Conrivers of it to Justice.

Letters from Lisbon say, that the Lord Tirawley, the British Envoy Extraordinary, has complain'd to Court of the English Ship St. Joseph being taken by a Spanish Privateer in the very Road of Faro and under the Canoa of that Place; and that the King having order'd an Inquiry to be made into the Affair, has caus'd two Spanish Ships to be stopp'd in the mean time in the Port of Lisbon.

And proper Persons have been sent to the Spot to inquire into the annual Produce of those Territories.

ritories, and the Senate has also appointed four Gentlemen to regulate that Affair.

The Affair of the petty Republic of San Marino makes so much Noise in that Part of Italy, that several Papers have been published upon it, which we hear will soon be translated into all the Languages of Europe, not only because of the Importance of the Revolution, but because 'tis ascrib'd to the Cardinal Alb-roni's Management.

Yesterday's night being the Anniversary of the Gunpowder Plot, the signal Deliverance then obtain'd by the Discovery of it was commemorated at Norwich by Ringing of Bells, Firing of Guns, a large Bonfire, Illuminations, and other publick Marks of Joy. The Right Worshipful Mr. Mayor and Sheriff Patteson entertain'd their Friends in a most elegant Manner, and the Rev. Mr. Coleman preach'd an excellent Sermon adapted to the Occasion.

After a Concert last Thursday Night at the King's Arms in this City, the following Verses were spoke extempore by a Gentleman.

No longer talk of Orphans, or Arion,  
Fables! which strict Inquirers can't rely on;  
Our CONCERT real, we may justly say,  
Has wrought superior Miracles To-Day.  
Such fond Attention on the Musick hung,  
That One and Twenty \* Ladies held their Tongue.  
And lo! no sooner was the Charm unloos'd,  
But all talk'd out as Womankind are us'd.

The WORKS OF MOLIERE in French and English

Being a very proper New-Year's Gift to all young Gentlemen and Ladies at Boarding-Schools, &c. as not only of the highest Use and Instruction to those who learn the French Language, but likewise the most innocent and Entertaining Amusement to others.

THESE Ten Volumes contain not only the Seventeen Plays of this Author, publish'd some Years ago in Eight Volumes, call'd, A Select Collection of Moliere's Comedies, revised with great Corrections, but likewise Thirteen more Plays, besides other Pieces, now first translated, and which compleat his Works.

The Original Text is taken from the late Grand Paris Edition, in Six Volumes, Quarto, sold at the Price of Six Guineas, an Edition so superior to any of the former, that it has given quite a new Face to the Author.

In the first Place the learned Editor, Mr. LA SERRE, consulted the Editions of the Pieces publish'd in the Author's Life-time, which gave him Room to reform several flagrant Corruptions which had crept into the Text, to restore several Omissions, and retrench several spurious Passages.

II. He has distinguish'd the Scenes with much more Exactness, and more punctually mark'd the Instant of Time of the several Entrances and Exits, than is done in the preceding Editions, and has likewise pointed out the particular Actions and Gestures of the Performers, which explains the Sense of many Parts obscure before.

III. He has supply'd the Place of the fabulous Life of the Author, and tedious Preface prefix'd to the former Editions, by faithful Memoirs of the Life of Moliere, and historical Criticisms on each of his Performances, which are prefix'd to the respective Plays, pointing out the Time of their Appearance, the Success they met with, and their several Merits.

By this Means we may safely aver, that our Edition, even with regard to the French, is far preferable to any Pocket Edition of this Author hitherto extant; and how serviceable the English Translation, done closely to the Original, and placed on the opposite Page, must be to the Learners of either Language, need not be insisted on.

Printed by and for John Watts, at the Printing-Office in Wild-Court near Lincoln's Inn Fields, and Sold by the Booksellers of Town and Country.
